ABOUT ME

My name is Sherena Fernando. I'm Full Stack Developer and Software Engineer. At the moment I am following the Graduate Diploma in Computer Science in Institute of Software Engineering Campus in Panadura. The main programming language is JAVA and I did projects from JAVA SE, Spring Web MVC and JAVA EE. Thank You!

MY PROJECTS

RESTAURANT MANAGEMENT SYSTEM

**CREATED BY MVC ARCHITECTURE**  
This application created for restaurant. Using MVC Architecture for the design and Java for main language, also used javFX for front end and MySql for Created database.

SUNBIRD SOLAR SYSTEM

**CREATED BY LAYERED ARCHITECTURE**  
This was Created for Sunbird solar Company software requirements. Using Layered Architecture for the design pattern and Java is the Main Programming Language. This is a Standalone Application there for used javaFX for the frontend and Ms Sql for the backend.

WEB PROFILE

**CREATED BY HTML/CSS AND JAVASCRIPT**  
This is my personal website created by me using html css and javaScript

CAR RENTAL SYSTEM

**CREATED BY SPRING MVC FRAMEWORK**  
This is created for online car rental website. The basic part of this is created by spring web mvc. The spring framework is used to create the interface.
